

Curalan® EG Fungicide

Curalan Is The Cure.

Curalan dependably prevents key turf diseases including:

- >> Brown Patch
- >> Pink Patch
- >> Red Thread
- >> Leaf Spot
- >> Melting Out
- >> Gray Snow Mold*
- >> Fusarium Patch*
- >> Pink Snow Mold*

*For improved control, use **Curalan** in tank mix with Thiophanate Methyl, Spotrete™ or re-treat at shorter intervals.

How To Apply Curalan.

Apply **Curalan** when conditions predict disease development. Repeat applications should be made according to label directions based on disease development.

Apply at the rate of 1 oz. in 1-4 gallons of water per 1,000 sq.ft. Allow foliage to dry before application. For more information on additives, mixing order, tank mixes, maximum use rates, restricted entry interval and crop specific information, consult the product label.

Spotrete is a trademark of Cleary Chemical Corporation.
