

Iprodione Pro 2SE FUNGICIDE

We Don't Make The Turf.
We Make It Better.™

 **BASF**
The Chemical Company

For A Better Value, Go With The Pro

Iprodione Pro 2SE fungicide provides tremendous value in the fight against turfgrass disease. It both prevents and cures brown patch and dollar spot, while controlling large patch, fusarium blight, leaf spot and several other diseases. When used as directed, **Iprodione Pro**:

- Prevents and cures key turfgrass diseases, including brown patch and dollar spot, in cool- and warm-season grasses.
- Provides cost-effective disease control with long residual, delivering significant savings in time and money by extending the intervals between treatments.
- Is safe to use on all cool- and warm-season grasses at any stage of growth.

Diseases Controlled

Iprodione Pro effectively controls key turf diseases including:

- | | |
|-----------------------|-----------------------|
| • Large Patch | • Leaf Spot |
| • Brown Patch | • Necrotic Ring Spot* |
| • Dollar Spot | • Gray Snow Mold* |
| • Fusarium Blight | • Fusarium Patch* |
| • Corticum Red Thread | • Pink Snow Mold* |

*For improved control, use **Iprodione Pro** in tank mix with **Insignia® fungicide** and chlorothalonil or re-treat at shorter intervals.

Use Sites:

- Golf Courses
 - Sod Farms
 - Commercial Turf
 - Production Ornamentals
- No residential uses.*

Mode of Action: Affects cell division, DNA and RNA synthesis and metabolism.

Rates: Turf: 2 to 8 oz. / 1000 in 0.5 to 10 gallons of water per 1000 (14 to 28 days); Ornamentals: 1 to 2.5 quarts / 100 gallons, not to exceed 2.5 quarts product per application.

Control Symptoms: Applied as a curative or preventative

**Iprodione Pro**_{2SE}
Fungicide

Iprodione Pro Gets Results

Keys to Success

Do not prepare more spray solution than can be used within 12 hours; Areas treated should not be mowed or irrigated until foliage has dried; Should not be combined with any stickers, spreaders or wetting agents.

Suggested Tank Mixes

Combine with other fungicides to control Summer Stress Complex/Decline.

Always read and follow label directions.
